

Green & Efficient Molecules at Work

CraftDyne Private Limited, India.

EcoAgtatm

Proactive, Naturally

Blumenn Strong Super Concentrate for Preventing Premature Fruit Drop and Increasing Yield.

**Safe | Non-toxic | Non-poisonous | Completely Readily Biodegradable
Made with Green Chemistry* Principles.**

* IUPAC Green Chemistry Principles

**ZERO harm to Air, Water and Soil.
ZERO harm to the Food Chain.**

To Increase more Viable Fruit, Preventing Premature Fruit Drop and Increasing Yield.

Addresses the underlying causes:

Internal Causes

- Lack of Specific Micronutrients
- Poor Soil Conditions
- Defective flowers
- Degeneration of Ovules
- Competition between developing Fruitlets
- Climatic Stresses
- Formation of abscission layer at the point of attachment of fruit to stem

External Causes

- High incidence of fungal diseases such as Powdery Mildew, Anthracnose.
- High incidence of Leaf hoppers and Mealybugs (Sap Suckers).

Economics

Multiple Benefits for Longer Periods
→ Saves Costs of farming,
Increases Yield

Performance

Effective in preventing Fruit Drop via
several mechanisms including fungus
& Insect repellency
→ **Systemic Protection, Immunity**

Safety

Non-poisonous, Non-toxic,
Non-fuming, Non-irritating →
Safe to Persons and Animals

Sustainability

Readily Biodegradable
Efficient → Reduces Resources
Zero harm to the Environment

Dilution:

For Tree & Plantation Crops, Ex. Guava, Mango, Coconut, Lemon, Lime, Tapioca
1 : 2000 (Example 100 mL in 200 Liters of Water.

Use fresh well or stream water dilution. (Non-Chlorinated water is preferable)
Completely pour all 100 mL into a clean container (drum) and fill with 200 Liters of fresh water and mix well for 10 minutes.
Wash and Rinse all the contents from the container into the mixing drum.

Usage Instructions.

Prefer to spray from 6 AM to 10.30 AM or 3.30 to 6.30 PM.
Spray to cover all leaves and parts of the plant.
Spray symptomatically*. (*when insects and fungi are seen)

Safety Information

Harmful if swallowed.
Wash hands and exposed parts of the body thoroughly after handling
Do not eat, drink or smoke when using this product
IF SWALLOWED get medical help – Present label and Safety Data Sheet to medical personnel. Treat Symptomatically. Treat for symptoms caused by ingestion of bitter oil and soap type surfactants. Wash mouth several times.

Causes eye irritation similar to that of soaps and shampoos. IF IN EYES: Rinse cautiously for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical help.
CraftDyne EcoAgta Blumenn Strong Tech Info & Use Instr 031526 A

Dispose of containers and contents in accordance with local, regional, national and international regulations. Empty all the contents into dry soil away from water. Wash the container with fresh water. Dry the container and recycle the container.

The contents are NOT toxic or poisonous
